

Hey - we made you a website.

Not a mockup, not a pitch deck. A real café site you can look at on your phone right now.

Scan to see it live

Free to look · yours to keep for £30/mo

Hey - we made you a website.

We're Tom and Phoebe. We build websites for independent cafés - the kind of place that already has the coffee, the regulars and the reviews, but nothing to send people to.

Scan the code and you'll see a full café site: menu, hours, photos, order-ahead. Yours would be the same, **built with your name, your photos and your prices** - and we build it before you pay a penny.

Like it? It's £30 a month, cancel anytime. Don't? Keep the card, no hard feelings.

What you get for £30/mo

- ✓ A site built for you in 48 hours - we do the writing and the setup
- ✓ Found on Google and ChatGPT when people search for coffee near you
- ✓ Menu, opening hours, photos and directions, always up to date
- ✓ Order-ahead and bookings, without the DMs
- ✓ Changes whenever you want them - just message us
- ✓ Your own domain, hosting and updates included

No contract, no setup fee, cancel anytime.
